I'm a front-end developer who loves to create things on the web. Passionate about landscape photography, videography, motorbikes and alpine hiking

WORK EXPERIENCE

YNAP (May 20, 2019 - Present)
Interface Developer

At YNAP, my journey began as a frontend developer, a role that has shaped my path for nearly three years. During this time, I had the privilege of making substantial contributions to the development and maintenance of renowned luxury e-commerce platforms like Bottega Veneta, Brioni, Yves Saint Laurent, Alaïa, and Dunhill. This experience not only honed my technical expertise in web-related domains but also exposed me to the power of collaborative teamwork through agile workflows.

Cartsan Srl (April 01, 2018 - April 01, 2019)
IT Customer Support

In addition to my primary responsibility of providing customer support and troubleshooting medical software, I was fortunate to have my boss recognize my passion for development. This led to an exciting opportunity where I was entrusted with developing an internal management system for the company. Through this experience, I acquired proficiency in PHP programming, utilizing MySQL as a database, and further refining my knowledge of HTML and CSS.

Videoarts Webdesign (June 01, 2015 - July 01, 2015)
IT Intern

As an intern at Fabio Mosti's Videoarts Webdesign, a small yet impactful company, I had the opportunity to immerse myself in the professional world. Under Fabio's guidance, I delved into the realm of object-oriented programming and embarked on a practical journey. During my tenure, I successfully developed a Java-based management software specifically tailored for a kennel. This invaluable experience further expanded my practical skills and solidified my understanding of software development.

EDUCATION

OverNet Education (March 01, 2019 - April 01, 2019)
Interface Developer

I completed a two-month full-time web developer course at Overnet Education offered by Modis Consulting, which offered valuable education on various aspects of web development. The course covered Adobe Photoshop and Illustrator for design, frontend development with HTML5, CSS3 and JavaScript ES6, including responsive layouts and backend development with C# .NET framework.

PROJECTS

Dunhill 2023 (November 01, 2022 - May 20, 2023)
Website Redesign

I led the frontend redesign of www.dunhill.com using the Lit Element framework. Improved UI/UX with HTML, CSS, and Lit Element. Ensured responsiveness and cross-browser compatibility. Integrated interactive elements for a captivating product showcase. Collaborated with the team to align design objectives and enhance the brand's digital presence.

OFS APIs
Chrome Extension

This extension is useful for YNAP developers to check the data returned by the api.yoox.biz APIs

🔗 <https://chrome.google.com/webstore/detail/ofs-apis/becbgejehcfbgcgjmpegigmilmnfc>

Digitalieuguali
Website

digitalieuguali.it is the project I created for YOOX. It was a great pleasure to have developed a site that has had an important following in our country, both professionally and humanly

🔗 <https://digitalieuguali.it/>

yDevice Switcher
Chrome Extension

I created this simple Chrome extension for my team members in YNAP using Javascript

🔗 <https://chrome.google.com/webstore/detail/ydevice-switcher/blhpgjemehfabfpmfmbdbmdieljlmeik>

EAGLEDROID
Website

Development of the project website

🔗 <https://www.eagledroid.com/>

Modisfill
Chrome Extension

Modifill is the Chrome extension that I developed for all Modis and Adecco employees who want to simplify and automate the compilation of their WTC. I developed it to experiment in a practical way the Chrome Extension APIs and the Javascript programming ES6

Astropanel v3, 5
UX

Restyling of versions 3, and 5 of the Astropanel plugin for Photoshop

🔗 <https://astropanel.it/>

Cassamutuamipaaf
Website (2018 version)

Website development based on PHP and MySQL database

🔗 <http://www.cassamutuamipaaf.it/>

Orionh Plus
UX

I created and developed for Milkywayhunters the graphics of one of their most popular plugins for Adobe Photoshop, which helps photographers in the post production of night photographs. Adobe Illustrator to sketch the graphics and HTML with CSS to develop it

🔗 <https://orionxpro.com/>

ITambiente S.r.l
Website

Development of the company website. It allowed me to approach the development of showcase sites and communication with the customer. I improved me with HTML, CSS using Bootstrap 3 framework
